Craft With a Loved One this Holiday Season!

The holidays are different this year. While we would love to be sitting right next to our loved ones this year, we are finding new ways to express our love and celebrate. Creating a craft with a loved one over Zoom is another way to connect and share a little piece of yourself even though you can't be there in person.

Each page includes a craft with a list of instructions and the supplies needed. Get a group together, invite loved ones and join a Zoom!
