August 2005 - May 2009	Research and Graduate Assistant Texas Tech University <i>HDFS</i>
August 2003 - August 2005	Legislative Correspondent United States Congressional Office , Washington, DC

EDUCATION

- Ph.D. *Human Development and Family Studies*, 2017
University of North Carolina at Greensboro
Doctoral Minor: Educational Research Methods
Dissertation: Examining the Direct and Indirect Effects of Multiple Family Transitions
Doctoral Committee: Mark A. Fine (chair), Daniel Perlman, Danielle Crosby, John Willse
- M.S. *Human Development and Family Studies*, 2009
Texas Tech University
Thesis: Examining the Impact of Social Networks and Religiosity on Adolescents' Academic Aspirations and Voluntary Community Service
Graduate Committee: Anisa M. Zvonkovic (chair), Nancy S. Bell, Kitty S. Harris
- B.S. *Restaurant, Hotel, and Institutional Management*, 2003
Texas Tech University

RESEARCH INTERESTS

child and adolescent development in context, long-term impact of child and adolescent trauma, intergenerational family processes, family structure, life course theory, longitudinal methods

GRANTS FUNDED

Assessing Implementation of Pharmacy-Based Medication Disposal Programs: National Estimates, Neighborhood Inequities, and Determinants of Implementation. (R03).

Grant under review by the National Institutes of Health at \$151,000.

Impact Score: 24; Percentile: 7

Summary: The overall objective is to assess (1) the extent to which disposal boxes have been (2) implemented in pharmacies across the US, accessibility of disposal boxes to diverse community (3) members, and determinants of implementation.

Kathleen Egan, PI, **Carol Johnston, Co-I**, Joseph Lee, CO-I, & Lori Ann Eldridge, Co-I.

Understanding Health Care Worker Stress and Promoting Resiliency During COVID-19. (2022-2023)

2021 Pilot Grant awarded by the College of Health and Human Performance at East Carolina University for \$4,833.

Summary: The overall goal for this project is to develop a program that can be implemented in all health care facilities to develop a culture of resilience in the context of work-related stress.

Tamra Church, PI, **Carol Johnston, Co-I**, Matthew Fish, Co-I

ENGAGE-REVIEW-EDUCATE: Stand with OED – Pledge to Act Against Racism and Injustice. (2020-2021).

Grant awarded through the Mini-Grant Program at East Carolina University for \$2,000.

Summary: The goal of this project was to engage with current and former Black, Indigenous, and People of Color (BIPOC) HDFS students about their experiences in our academic programs in order to make curricular and andragogical changes to increase equity and inclusion.

Eboni Baugh, PI, **Carol Johnston, Co-I**, Kate Taylor Harcourt-Medina, Co-I, Jake Jenson, Co-I, Sheresa Blanchard, Co-I

Competitive Start-up Fund Grant. (2019-2022). Start-up award funded by the Division of Research Economic Development and Engagement at East Carolina University for \$84,280.

Summary: Aims of these funds included investigating patterns of family structure changes using innovative methods that are capable of accounting for the timing, type, and number of changes that children experience across the early life course and to compare family context and children's ecological contexts across international, developmental datasets.

GRANTS CURRENTLY UNDER REVIEW

Applying an Equity-focused Exploration Process and Implementation Sustainment Framework to Racial Inequities in the Diagnostic Resolution of Abnormal Mammography Results. (R15).

Grant under review by the National Institutes of Health at \$452,804.

Summary: Black and Latina women continue to experience delays in completing follow up testing in response to abnormal breast cancer screening results, which contributes to racial inequities in breast cancer. We apply the principles of Critical Race Public Health Praxis to guide the selection of potential contextual factors that may lead to racial inequities in diagnostic delays. Deeonna Farr, PI, Mi Hwa Lee, Co-I, & **Carol A. Johnston, Co-I.**

Socioeconomic impacts of La Crosse encephalitis in western North Carolina. (R15).

Grant under review by the National Institutes of Health & \$458,170.

Summary: Limited research has identified that LACVD/NLACVD causes long term SE harm, however, little is known about the current status of patients and their families in Western North Carolina. This study will examine behaviors and perceptions related to LACVD/NLACVD exposure risk and will inform assistance provided to survivors and families. LACVD/NLACVD incidence is higher in the Appalachian region. This study will develop new tools to measure effects of LACVD/NLACVD on survivors and their families, and improve post-illness follow up tools and protocols. Stephanie Richards, PI, Matthew R. Boyce, Co-PI, Rashmita Basu, Co-PI, & **Carol A. Johnston, Co-PI**

GRANTS NOT FUNDED

Family Structure Histories, Child Health, and Endogeneity in Cross-National Contexts. (R03).

Grant under review by the National Institutes of Health for \$167,500.

Impact Score: 39; Percentile: 24

Summary: This study will compare across multiple countries the degree to which linkages between family structure histories and child health reflect the socializing role of diverse family histories and factors leading to such diverse histories. Leveraging longitudinal data from representative samples in four countries, these cross-country comparisons will innovatively elucidate how family structures emerge from stratification systems and policy regimes that also shape their developmental significance, and, in doing so, strengthen causal inference in a key field with public health significance.

Carol A. Johnston, PI, Robert Crosnoe, Co-PI

Examination of CBD and Delta-8 Products: Reasons for Use, Reported Positive and Negative Effects, and Chemical Compounds Present in Products. (R01). Grant under review by the National Institutes of Health for \$2,331,360.

Summary: With the rapid increase in individuals using CBD or Delta-8 to forego medical treatment, there is a need to understand CBD and Delta-8 users' reasons for use, positive and negative effects, and patterns of use. Our objective is to identify reasons for use, perceived benefits, and perceived negative effects associated with CBD and Delta-8 product use, assess the chemical content of popular CBD and Delta-8 products, and examine patterns of CBD and Delta-8 use.

Kathleen Egan & Eric Soule, PIs, **Carol Johnston, Co-I**, Jack Pender, Co-I, Beth Reboussin, Co-I, Kimberly Wagoner, Co-I

Taking the Reins: A Study Exploring the Effects of a Self-Care Group Using Equines on Parents of Children with Disabilities.

Grant under review by Human Animal Bond Research Institute for \$87,570.

Summary: The goal of this project is to provide parents of children with disabilities equine therapy. To determine the success of the intervention we will interview parents, assess mental health with questionnaires, and obtain physiological measures before and after completion of 10 weeks of equine therapy.

Heather Panczykowski, PI, **Carol Johnston, Co-I**, Matthew Fish, Co-I

Assessing Implementation of Pharmacy-Based Medication Disposal Programs: National Estimates, Neighborhood Inequities, and Determinants of Implementation. (R03). Grant not funded by the National Institutes of Health for \$151,000 (Impact Score: 38, Percentile: 24). Kathleen Egan, PI, **Carol Johnston, Co-I**, Joseph Lee, Co-I

Early Detection of Cardiometabolic Disease and Inflammation during Pregnancy. Grant under review by the American Heart Association for \$200,000. Linda E. May, PI, **Carol Johnston, Co-I**, Tonya Zeczycki, Co-I, James deVente, Co-I, & Vaness Pardi, Co-I

Building Inclusive Community via Sport. Grant under review at the Center for Sport Leadership at VCU (U.S. Department of State Subaward for \$140,806). Stacy Warner, PI, **Carol Johnston, Co-I**, Christine Habeeb, Co-I

CPR-C: Children, Parents, and Relationships during COVID-19. Grant not funded by the JM Lewis Foundation for \$50,000. **Carol Johnston, PI**, Shannon Weaver, Co-I, Dana Weiser, Co-I

IES Pandemic Recovery in SPED. Grant not funded by the Institute of Education Sciences for \$533,950. Mark Reardon, PI, **Carol Johnston, Co-I**, Sheresa Blanchard, Co-I, Kristen Cowan Cuthrell, Co-I, Bethany McKissick, Co-I, Anita Boyd, Co-I

Mixed Methods Study of Risk Factors for High-Intensity Drinking at On-Premise Drinking Establishments. Grant not funded by the National Institutes of Health for \$426,544. Melissa Cox, PI, **Carol Johnston, Co-I**, Elizabeth Chaney, Co-I, Ryan Martin, Co-I.

Understanding Maternal and Placental Mechanisms of Preterm Birth and Preeclampsia for Early Detection and Future Interventions. Grant not funded by the Burroughs Wellcome Fund for \$500,000.
