Day, J. Received a travel stipend from NSF to present at workshop for ASME National Science Foundation (NSF) Research Coordination Network (RCN) on Sustainable Human-Building Ecosystems (SHBE).

Dudek, Mike & Kim, Hyung-Chan: Received the 2015 Dean Barbara S. Stowe Endowed Faculty Development Fund Award. “An effort to develop new, and continue existing collaborative, multi-cultural design studio projects with Korean University partners”.

The Office of Assessment recognized the **Interior Design** program’s outstanding achievements in student learning outcomes assessment as demonstrated through strategies applied in ID651 Design for Supportive Environments, taught by **Migette Kaup**. This recognition was for outstanding work developing and implementing assessment measures that reflect and/or are adapted from the AAC&U Rubrics. Brian Niehoff, Associate Provost for Institutional Effectiveness, and Provost April Mason presented the award as recognition of this achievement during The Assessment Showcase event on Thursday, April 23 in the Hemisphere Room at Hale Library. Dr. Kaup shared a short statement of the program’s experience with designing and using the rubrics as a way for others to learn from your successes with these measures of student learning.

Bruce, Courtney an interior design student from Overland Park, KS, in the College of Human Ecology was a member of the winning team in the 2015 "Design Wars" sponsored by the Mid-America Chapter of the International Interior Design Association (IIDA). This September 18th event was open to sophomore, junior and senior interior design students currently enrolled in an interior design degree program at the university level in the Midwest region. Students from different programs were assigned to teams, and the competition challenged the teams to develop a creative design for an existing interior space in downtown Kansas City. Each team had three hours to produce a spatial design, select finishes, and create a presentation of their concept. The teams presented their designs to a panel of prominent industry leaders. Other members of the winning team who shared in the \$2,000 prize included Erin Heiden, Graduate Student in Interior Architecture & Product Design, Kansas State University, Jessica Menge, Senior, University of Central Missouri Interior Design, and Maria Stevenson, Junior, Park University Interior Design. The team's winning solution was a restaurant that placed the bar and butcher's shop in the front of the space so that it would be seen by pedestrians passing on two streets. High visual access was a key concept to encourage patronage during the evening hours. The team used a variety of materials, colors, and textures to showcase the products in the butcher shop and to foster a connection between the inside of the space and the nightlife of the streetscape. Courtney Bruce, K-State Interior Design student noted, "I really enjoyed the opportunity to work with other students in different programs because it is fun to see how other people worked and the ideas they had." The judges were impressed by the team's space planning, use of perspective drawings to communicate the details of design ideas, and the incorporation of a cohesive concept.
