Skills:

Certified Physician Assistant with over 24 years of clinical experience with the majority of time spent in family medicine and urgent care, Clinical Director & Clinical Assistant Professor at Kansas State University Physician Assistant Program. Proficient with Microsoft Office and enjoy developing templates for electronic medical records. Experience mentoring PA students and giving lectures to the public/students. Assisted in the development of the Flint Hills Sexual Assault Response Team at Mercy Regional Health Center in 2005 and was a member of the Flint Hills Sexual Assault Coalition. Proficient in BLS/ACLS/ATLS/PALS/NRP.

Experience:

Kansas State University/Clinical Director/Clinical Assistant Professor

March 2024 - PRESENT, Manhattan, KS

Teach Physical Diagnosis I/II/III and Clinical Geriatrics to didactic students. Teach Family Medicine I/II, Geriatrics, and Women's Health to clinical students. Assist in Clinical Procedures. Interim Clinical Director from February 2025-September 2025. Clinical Director starting September 14th, 2025. Manage the clinical team including placement of students, weekly clinical meetings, scheduling return to campus activities, scheduling/delivering the Business of Medicine Lecture Series, and overseeing all information/documentation in clinical experiences. Proficient using Canvas, Exxat, Concur, Zoom, Exam Master, CAE Learning Space, and My Clinical Exchange. Advising of students in both didactic and clinical years. Procuring preceptor positions. Visiting students on clinical rotations. Proctoring exams. Community Education Events. Schedule and evaluate didactic and clinical students on exams/OSCE. Schedule and oversee Return to Campus education time. Participate in monthly meetings to maintain a working relationship with Stormont Vail Health Systems.

Stonecreek Family Physicians / Physician Assistant

July 2008 - PRESENT, Manhattan, KS

I have worked at all of our locations, including the family practice and K+Stat Urgent Care. For nine years, I served as the sole on-site provider at our contracted position at the Champion Teamwear Health Clinic, where we serve Champion employees as their primary care provider. This role gave me the opportunity to build long-term relationships with patients and witness the growth of younger individuals over time. As the only provider on-site, I developed confidence and independence in performing physical exams, ordering and interpreting lab tests and X-rays, prescribing medications, counseling patients, and making referrals when appropriate. I consulted my supervising physician by phone as needed for complex cases. In addition to clinical care, I have contributed to training staff on template use and EMR systems across two different platforms. I also fill in at Stonecreek and K+Stat locations as needed to support staffing.

K-Stat Urgent Care/Ascension Via Christi/Physician Assistant

November 2024 - PRESENT, Manhattan, KS

Since November, when the hospital acquired K+Stat Urgent Care, I have continued working there as a Physician Assistant, providing the full scope of PA services. This includes independently evaluating and treating patients, performing physical exams, ordering and interpreting diagnostic tests, prescribing medications, performing procedures, and coordinating follow-up care or referrals as needed. I have been fully integrated into the team and continue to manage both acute and chronic conditions in a fast-paced urgent care setting, maintaining high standards of patient care.

Emergency Physicians of Manhattan / Physician Assistant

May 2005 - June 2008, Manhattan, KS

I worked in the Emergency Department with 1-2 physicians. PA's were responsible for mostly fast-track area, but I would assist with more emergent patients depending on acuity and demand.

Mercy Regional Health Center /Sexual Assault Examiner

December 2005 -September 2008, Manhattan, KS

I assisted in the development of the Flint Hills Sexual Assault Response Team. Along with another nurse, we worked to develop relationships with partnering hospitals, develop protocols, acquire equipment, provide training for new examiners, and educate the public/health care providers on sexual assault and the new system we created for our area. I took regular call for the response team and provided sexual assault exams for victims of all ages.

Lafene Health Center / Physician Assistant

March 2007 - May 2007, Manhattan, KS

I filled in for a provider who was out on a personal injury leave. I helped staff Lafene Health Center Women's Clinic - helping Dr. Wendy Blank see patients and take care of them.

Stonecreek Family Physicians / Physician Assistant

July 2001 - April 2007, Manhattan, KS

After completing my degree as a PA, I completed my preceptorship here. I started working for them immediately after graduating; caring for a doctor's practice while she was on maternity leave. I continued working for Stonecreek Family Physicians for the next 6 years.
