

Kansas State University Didactic Program in Dietetics
KRDN Curriculum Map (Required Element 5.1/5.2)
Didactic Courses Aligned with Core Knowledge for the RDN (DPD)

Background: The KRDN Curriculum Map is used to identify the courses in which students are being taught ACEND-Required Core Knowledge (KRDN).

Directions: List courses in chronological order organized by term, including course number, course title and credit hours. Next, using course syllabi, textbooks and assignments, identify what ACEND-Required Core Knowledge occurs in a course and place an 'X' in the appropriate column. Add additional rows as needed.

X – denotes topic taught in the course

X – **BOLD** denotes topic taught in course and is a DPD Professional/Science Course

X* - **BOLD*** denotes topic taught, is a DPD Course, and KRDN measured in course
