

What Counts for What. . .

Some programs in the College of Human Ecology (CHE) allow you to choose elective courses in one or more areas included in “General Requirements,” e.g., in humanities or natural and physical sciences. Here’s a reference list to help you identify possible courses to meet those elective requirements. Consult your adviser before enrolling.

Please Note:

- Each college has its own rules...this information applies ONLY to degree programs in the CHE.
- If you are completing dual degrees from different Colleges, you need to comply with criteria set by each of the Colleges involved. Consult the K-State Undergraduate Catalog, your adviser, or the Dean’s Office.
- Teacher licensure programs have restrictions. See additional information below.
- One-hour courses in these areas are acceptable only if they are laboratories accompanying a course, such as PHYS 101 and PHYS 103. Other one-hour courses apply only as UNRESTRICTED ELECTIVES.
- Only courses numbered 100 through 799 can be applied toward undergraduate degrees.

Communications

English Composition Courses, ENGL—
Public Speaking, COMM—

Humanities (Course must be three credits or more to apply.)

American Ethnic Studies, AMETH—
Architecture, ARCH—
Art, ART—

Additional Information for Teacher Licensure Programs

- Communication courses, other than Expository Writing I and II and Public Speaking, CANNOT be used to complete the general education requirements.
- For Early Childhood Education students only: ENGL 545 Literature for Adolescents CANNOT be used to satisfy the literature requirement.
- Consult the Director of Licensure (BH 013) about application of two credit courses, AMETH, GERON and GWSS
- Only BIOL courses will apply for biological science electives.
- Early Childhood Education requires one course with a lab in EACH of the following AREAS: biology, physical sciences, and earth sciences. Consult your advisor for a list of accepted courses.
- At least nine credits in social science NOT including psychology are required. Only approved anthropology courses will apply as social science courses.
